6336N

2.5kg Grease Kit

The 6336N 2.5kg grease kit is manufactured in Germany to the highest standards of quality and with its foot operated design enables the user to have both hands free to reach difficult to access lube points.

This updated model is now supplied standard with a convenient carry handle inclusive of a rubber grip that also features on the hand piece trigger for comfort and ergonomic large plastic head screws that enable quick and easy attachment to a 2.5kg drum of grease.

When the hand gun is on the high volume setting, one action of the hand gun's trigger will deliver up to 1.25 grams of grease.

And when the hand gun is on the high pressure setting, grease pressures of up to 10,000psi are attainable.

The light weight of the 6336N 2.5kg grease kit makes it fully portable and ready to carry out important greasing tasks on demand, anywhere at any time.

The fully sealed system eliminates the chance of grease and lube point contamination and by sourcing your grease in 2.5kg drums, instead of 450 gram cartridges, your per kilo grease cost will be reduced.

To be assured of fast, effective and trouble-free greasing, choose the 6336N grease kit - the ultimate greasing tool.
