

OWNER'S TECHNICAL MANUAL

Oil Hose Reel

<u>SOI700</u>

January 2020

Description

The Alemlube SOI700 Oil Hose Reel is a genuine industrial quality hose handling, retrieval and storage system with highly flexible and durable S.A.E.100R1 rubber hose, crimped hose ends, integral carry handle and detachable mounting bracket.

Manufactured from high quality impact resistant and UV stabilised polypropylene, the SOI700 Oil Hose Reel features a positive latching system that automatically locks the hose at the desired length. The heavy duty internal spring assembly easily retrieves the hose when partially or fully extended.

Suitable for use in the agricultural, automotive, manufacturing, contractor and transport sectors, the SOI700 Oil Hose Reel from Alemlube will provide you with a reliable and cost effective means of storing and retrieving hose assemblies in your workshop or in the field.

Mountable on the wall, floor or ceiling, the SOI700 is engineered to go the distance even when put to work in the most demanding applications.

Product Specifications, Features and Benefits

10m x 12mm ID S.A.E.100R1 rubber hose

Impact resistant UV stabilised covers for maximum durability

Automatic and positive latching mechanism

1/2" BSPT(m) inlet and outlet

Maximum working pressure of 2,000psi (138 bar)

Working temperature range from -30°C to 100°C

Steel spring & Buna 'N' seals

High flow swivel and fluid path

Can be mounted on the wall, floor or ceiling

Detachable steel mounting bracket enables 180° hose reel rotation

Dimensions: 490mm (L) x 448mm (H) x 228mm (W)

Weight: 15.6kg
